

OPERATING AND SERVICE MANUAL

MODEL 3325A SYNTHESIZER/FUNCTION GENERATOR

Serial Numbers: All

IMPORTANT NOTICE

This manual applies to all instruments. Earlier versions of the 3325A, however, may differ in design from the instruments this revision documents directly. Design and documentation changes are identified by a Δ symbol. The delta symbols refer servicing personnel to the backdating section (Section VII) where specific information regarding the change is presented.

WARNING

To prevent potential fire or shock hazard, do not expose equipment to rain or moisture.

Manual Part No. 03325-90002

Microfiche Part No. 03325-90052
